<b>Section 5</b>	<b>Fire Fighting Measures</b>
------------------	-------------------------------

<b>Hazard Type</b>	Combustible material
<b>Hazards from decomposition products</b>	Avoid breathing smoke or fumes that may contain hazardous decomposition products. Carbon dioxide, carbon monoxide, oxides of nitrogen. May produce toxic decomposition products in fumes and smoke in fire.

<b>Suitable Extinguishing media</b>	In case of fire water spray.
<b>Precautions for firefighters and special protective clothing</b>	Wear personal protection equipment and self-contained breathing apparatus. Wood dust may form explosive mixtures with air.
<b>HAZCHEM CODE</b>	<b>None Allocated</b>

**Section 6 Accidental Release Measures**

**SPILLS:**

Wear appropriate personal protective equipment. Avoid any contact with skin or eyes.

Dispose of treated off cuts to authorised landfill. Consult Regional Council for disposal options  
Clean spillage area with detergent and water. Wash and dry any contaminated protective equipment before re-use.

**Section 7 Handling and Storage**

**HANDLING:**

- Wear protective clothing.
- Wash hands before smoking, eating, drinking or using the toilet
- Keep away from sparks, open flames, hot surfaces. No smoking.

**STORAGE:**

- Store in a dry, well-ventilated place, away from sources of heat or ignition
- Freshly treated timber must be stored for up to 14 days after treatment in a well ventilated area to allow evaporation of residual hydrocarbon solvent. Storing timber in block stack will slow solvent evaporation.
- Store away from incompatibilities listed in Section 10.
